Kicukiro-Gikondo (KK4Ave) Kigali

## Profile

I am software engineer who is working in the software engineering industry, where my daily responsibilities include collaborating with a team of engineers to design, build, and implement high-quality software products.

This involves writing code, testing and debugging, and following established engineering practices. Additionally, I am well-versed in Agile methodology and have experience working in Agile development environments. This allows me to work efficiently and effectively in fast-paced and constantly changing environments, and to continuously deliver value to our customers through regular iterations and feedback.

## Employment

### Full-stack software Engineer

May 2022 - Jan 2023

Augmented future, Kigali

After completing my internship at Augmented Future, a leading technology company, I was retained for a part-time job. During my time there, I had the opportunity to work on real-world projects and gain a deeper understanding of the software development industry. I was able to apply my theoretical knowledge in practice and develop my skills further. The experience I gained during my time at Augmented Future has been invaluable in my professional development.

### Software Engineer

May 2021 - Jul 2021

Image Rwanda, Kigali

After completing my internship at Image Rwanda, a company specializing in technology and digital solutions, I was retained for a part-time job. During my time there, I had the opportunity to work on exciting projects and gain hands-on experience in the technology industry. I was able to apply my skills and knowledge to real-world challenges and further develop my expertise. The experience I gained at Image Rwanda has been instrumental in my professional growth and has helped me to build a strong foundation in the technology industry.

Database Management

# Internships

## Software Engineer

Jan 2021 – Apr 2021

Image Rwanda, Kigali

I completed a 3-month internship at Image Rwanda as part of the Andela Technical Program, where I gained hands-on experience in real-world projects and developed my skills in the technology industry.

## Backend Software Engineer

Mar 2021 – May 2021

HEXAKOMB Ltd, Kigali

I completed an academic internship as a backend engineer at Hexakomb, where I gained hands-on experience in developing and maintaining backend systems using Django and Spring Boot frameworks. The internship provided me with valuable industry experience and allowed me to apply my theoretical knowledge to real-world projects. The skills and knowledge I acquired during this internship have been instrumental in my professional development as a backend engineer.

## Full-stack Software Engineer

Jan 2021 – May 2021

Augmented future, Kigali

I completed an academic internship as a full-stack software engineer at Augmented Future, where I gained hands-on experience in developing and maintaining web applications using React.js and Node.js. The internship provided me with valuable industry experience and allowed me to apply my theoretical knowledge to real-world projects. The skills and knowledge I acquired during this internship have been instrumental in my professional development as a full-stack software engineer.

## Full-stack web engineer

Jan 2021 – May 2021

Andela Rwanda, Kigali

I have managed to complete academic internship; which i did at Andela Rwanda as full-stack web engineer, where i gained a lot of skills including use of trending technologies like Nodejs and React js and postgresQL database; I also learned to use version control together with leadership skills like self management.

# Education

## Bachelor of Computer Engineering

Sep 2018 – Dec 2022

University of Rwanda, Kigali

I pursued a degree in computer and software engineering with a focus on software development during my undergraduate studies. I gained a comprehensive understanding of computer systems and software development methodologies, as well as hands-on experience in programming languages and software development tools. My coursework emphasized the design, implementation, and maintenance of software systems, and I specialized in software development, which has prepared me well for a career in the software development industry.

Computer network

Version control

# Languages

Kinyarwanda

English

# Hobbies

- Reading books
- Listening musics
- Watching movies
- Solving Problem
- Playing video game

## High school diploma

Jan 2015 – Nov 2017

Ecole des science Nyamagabe, Nyamagabe

I studied math, physics, and computer science as my major subjects during high school. I gained a strong foundation in mathematical concepts and problem-solving, as well as a deep understanding of the physical world and the principles that govern it. Additionally, I developed my skills in computer programming and technology, which have proved to be valuable in my academic and professional pursuits.

---

## Certificates

### Andela Technical Leadership Program

Aug 2021

I was trained by Andela in nine months intense program called Andela technical leadership program where i learn more skill sets like practical coding skills and soft skills that improve my professionalism; and i learned to work in team.

### Certificate in Software development

Jul 2018

I did attende a short course program that took about 6 months; under software development program; in Kigali International ART College (KIAC)

### Introduction to Computer networking,

May 2019

#### CCNA

As student of Computer and Software Engineering facult we were able to take CCNA courses where i earned certificate of introduction to computer networking.
